## THE BARK BEETLE

A bark-beetle in a tree  
is a secret. Just for me.

Once, someone knocked on it's door:

„Knock! Knock! I am looking for  
a bark-beetle. Open please.  
I'm doctor of sick trees.”

The bark beetle showed the head.

„Snap!” No beetle and no threat.

I still wonder who could be  
forest doctor of the tree.
