## THE COLORS

What role models are for hues?

Three colors had different views.

"Chive is perfect! Color's dream!"

- the first color made the scream.

The next one shout: "Beet ! Beet! Beet!"

"My role model! The best hit!"

"My color is from the Sun!"

- it was heard from the third one.

Colors stopped cars and a tram

making noisy traffic jam,

because colors' quarrel was

in the middle of ... street cross.
