THE SUPERFLOWER

It's impressive, effuse, grand,
remarkable, curious and
it has a bloom that is paint
with beautiful purple taint.
On the meadow it wields power.
Simply put - the superflower.
Incredible and first class !
But to see it in the vase
is sporadic and rare case
due to wild part of its face.
For its picking is one need -
next to clippers - the gloves kit.
It helps avoid spiky bristle
'cause the bloom is on the ... thistle.
