Jacek CUDNY

THE SUPERFLOWER

It's impressive, effuse, grand,
remarkable, curious and
it has a bloom that is paint
with beautifull purple taint.
On the meadow it wields power.
Simply put - the superflower.
Incredible and first class!
But to see it in the vase
is sporadic and rare case
due to wild part of its face.
For its picking is one need next to clippers - the gloves kit.

It helps avoid spiky bristle

'cause the bloom is on the ... thistle.
