THE GRAFFITI ARTIST

Most graffiti fans agree
they dream of walls, when they ski.
But one of them doesn't dream,
because there's work for him.

This guy works without a word.
That is why, he can't be heard.
He loves moon, stars and black sky
- favorite landscape of this guy.

He needs nothing, zero light.
He can create in the night
fine, glass paintings. What a show!
Who is this guy? Do you know?

I will help you! I will try!
There is someone in the sky -
very high - a lot of yards!,
who destroys the graphic arts!

If glass is washed by the sun,
who's the artist? Who's that one?
