## THE SUPERFLOWER

It's impressive, effuse, grand,  
remarkable, curious and  
it has a bloom that is paint  
with beautifull purple taint.  
On the meadow it wields power.  
Simply put – the superflower.  
Incredible and first class !  
But to see it in the vase  
is sporadic and rare case  
due to wild part of its face.  
For its picking is one need -  
next to clippers – the gloves kit.  
It helps avoid spiky bristle  
'cause the bloom is on the ... thistle.
